Detention wait-time log

One row per stop. Write clock times (24 h). Ask the facility to print a name and sign beside the out time. The example row is invented. Clock start rule used in the XLSX: later of appointment and arrival; change it if your rate con says otherwise.

Date	Load #	Facility, city	Appointment	Arrived at gate	Checked in	At door (time, door #)	Loaded / unloaded	Out (paperwork signed)	Notice sent (time, to)	Facility name and signature	Driver signature
EXAMPLE 03/11	48213	Receiver, Dallas TX	08:00	07:40	07:52	11:05, door 14	12:50	13:10	10:00 to broker dispatch		

Carrier: _____ MC: _____ Driver: _____ Truck #: _____
